

Here's an excerpt from my new book with Dr. Paul Bosland, *The Complete Chile Pepper Book*. The book is hardcover, 336 pages, 250 full-color photos, 85 recipes (with food shots). It is organized like this:

- About Chiles
- Top 100 (or so) Chiles for the Garden
- Capsicum Cultivation
- Processing and Preservation
- Cooking with Chiles

If you want a signed copy, buy the book [here](#) then send me a stamped, self-addressed envelope along with your name and dedication, and I will sign a faceplate for you that you can stick into the front of the book.
